Amendments to Israeli Pesticide Residues Regulation

Report Categories:

FAIRS Subject Report

Approved By:

Ali Abdi, Agricultural Minister Counselor

Prepared By:

Jessica Sullum Shay, Marketing Specialist, and Bret Tate Agricultural Attaché

Report Highlights:

Israel's Public health regulations on pesticide residues were amended on November 22nd 2017. The new regulations came into effect on December 28th 2017. The updated regulation amends or updates over 200 maximum residue levels for use in fruit and vegetables.

Public health regulations (food) (pesticide residues) (Amendment) - 2017

Israel's Public health regulations on pesticide residues were amended on November 22nd 2017. The new regulations came into effect on December 28th 2017. The Public health regulations (food) (pesticide residues) (Amendment) - 2017 updates existing Israeli regulation "Public health regulations (food) (pesticide residues) – 1991". The regulation can be found in Hebrew [online](#). The changes, both inclusions and cancelations, are presented in the following two tables.
